

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

And no person having the care of or owning any animal affected with any such disease shall lead, drive, or permit such animal to go on or over any public grounds, uninclosed land, or on any street, public highway, lane, or alley, nor permit it to drink at any public watering trough, pail, or spring, nor to keep such diseased animal in any inclosure in or from which such diseased animal may come in contact with or close proximity to any animal not affected with such disease. And an animal will be deemed as suspected when it has stood in the stable with or been in contact with an animal known to have any of said communicable diseases, or if placed in a stable, yard, or other inclosure where such diseased animals have recently been kept.

Whenever an animal infected with any of the diseases herein named shall die, or shall be killed, the body of such animal shall be immediately burned. No post-mortem examination of the carcass should be made, except under the immediate supervision of a health officer or sanitary inspector.

All bedding, litter, excrement, etc., that have accumulated about such animal, together with all blood or other fluid elements that have escaped from it shall be burned. Dirt floors of stables wherein such animal has been kept shall be removed to the depth of 4 inches and burned.

Everything about the stable, combs, brushes, or any post or fence where it has stood, and every part of harness or wagon used with such animal, and the stable where it has been kept, shall be thoroughly disinfected, under the direction of a duly qualified veterinary surgeon, or the health officer.

Whenever the owner or person having charge of an animal declared by the State veterinary surgeon or other authorized person to have glanders shall refuse to allow the destruction of such animal, the premises whereon such animal is kept shall be quarantined until such animal is destroyed and the premises thoroughly disinfected.

Any violation of this ordinance shall subject the offending party to a penalty of \$10 for each offense, or imprisonment for not less than 10 days, or both.

The quarantine shall be construed to mean the perfect isolation of all diseased or suspected animals from contact with healthy animals, as well as the exclusion of such healthy animals from the yards, stables, inclosures or grounds wherever said suspected or diseased animals are or have been kept.

Births and Deaths—Registration of. (Reg. Bd. of H., May 19, 1914.)

SEC. 22. *Births.*—Every physician or midwife attending at the birth of a child, and no physician or midwife being in attendance, the parent or custodian of a child shall cause a certificate of such birth to be returned within 5 days thereafter to the local registrar, which shall be attested by the physician or midwife, if any in attendance, and no physician or midwife being in attendance, by the parent or custodian of a child born.

Any violation of this ordinance shall subject the offending party to a penalty of \$5 for each offense, or imprisonment for not more than 5 days or both.

SEC. 23. *Deaths.*—It shall be the duty of the physician last in attendance upon any person who may die to fill out a certificate of the death and the probable cause, and duly certify the same and deliver the certificate to the local registrar of vital statistics within 24 hours after the death occurs. In case an inquest is required by law, the coroner or the coroner's physician shall fill out the said certificate; and if no inquest is required and no physician was in attendance at the time of death or immediately prior thereto, the health officer of the municipality or his medical assistant shall fill out and file said certificate.

Any violation of this ordinance shall subject the offending party to a penalty of \$10 for each offense, or imprisonment for not more than 10 days, or both.
